

Want to collaborate within green energy & technology?

Be part of EU-UA Sunrise!

The EU-UA SUNRISE project is committed to create **resilient, decentralised and smart energy systems** by promoting **cross-border, international collaborations between SMEs and other members of energy clusters** within 6 countries — **Norway, Sweden, Slovenia, Portugal, Poland, and Ukraine** - focusing on **RES (solar, wind, biomass), energy efficiency, energy storage (hydrogen), and smart energy management**.

EU-UA SUNRISE – a strategic partnership

The project provides:

- **Matchmaking between SMEs** of partnering clusters to achieve the signing of business agreements
- **Knowledge exchange** and **capacity building** to ensure that SMEs are well-equipped to face future energy challenges.
- Preparation of a **catalogue of collaborative solutions** to expand the client base and cooperation.
- **Integration of innovative technology**—extended reality (XR (VR/AR)) - to increase company digitalization, network enhancement, and promotion – check out an example with the QR-code.

The expected outcomes include a more integrated European and Ukrainian renewable energy market, enhanced SME capacities, and the establishment of a sustainable model for ongoing collaboration and investments.

Want to collaborate within green energy & technology? Be part of EU-UA Sunrise!

This **questionnaire** is made under the project and if you are interested in being part of the project, please **fill in the form below**. We will evaluate your interest and then come back with more information on how to proceed in the further process.

If you have any further questions you will find our contact details at the end of the questionnaire. Thank you for your cooperation and support!

Questionnaire

1. Company/institution:

2. Contact person & contact details:

- a. Name:
- b. Role/Title:
- c. Phone number (incl country code):
- d. Email:
- e. Website:

3. Is your company/Institution interested in XR (virtual and/or augmented reality) technology:

- ☐ Yes, but with educational purposes
- ☐ Yes, to improve production and maintenance operations
- ☐ Yes, for marketing and communications
- ☐ Yes, but only to get to know better about XR technology and trends
- ☐ No

4. Is your company/Institution interested in finding a partner from the other consortium countries:

- ☐ No
- ☐ Yes - **please indicate what kind of partner you are looking for:**
 - ☐ Renewable energy generation (solar, wind, biomass, hydrogen)
 - ☐ Decentralized energy systems
 - ☐ Energy integration and smart grids
 - ☐ Energy efficiency in systems and infrastructure
 - ☐ Sustainable construction and building materials
 - ☐ Environmental and eco-innovation
 - ☐ Energy storage systems (battery technologies, Hydrogen)

Page 2

- ☐ Smart energy and building management
- ☐ Sustainable business practices in the energy sector
- ☐ Smart city technologies
- ☐ Cross-sector innovation and collaboration
- ☐ Other, please specify:

5. Please provide us with information about your product or service:

6. Do you have any other relevant information for us?

If you have further questions or comments, please contact:
